

## **ATTACHMENT A**

### **REMARKS**

Considering the matters raised in the Office Action in the same order as raised, the application has been indicated to be in condition for allowance except for one formal matter. In this regard, claims 1-11 have been objected to because the phrase "light sensors" at line 8 of claim 1 should be changed to quote "light sources." This correction has now been made so that no formal matters now remain. Thus, since claims 1 to 20 have been allowed, this application is now in condition for allowance.

**END REMARKS**
